

Beading Times for April

Mill Street Rocks, Beads and Lapidary Supplies

3791 Mill Street, Reno, NV

775-323-1919

Hours: 11am-6pm / Tuesday-Saturday

Easter is just around the corner and Spring is in the air! Think flowers and leaves in your beadwork projects during this time of rebirth. If you haven't looked at our darling bugs: lady bugs, bees and caterpillars, you should! They are soooo cute! One would look so Spring-y beaded onto any of your beautiful pieces. They are near the front counter in our showcase. We have a nice selection of Czech glass leaves and flowers perfect for the season.

Melinda is teaching basic stringing, peyote stitch cube bead bracelet and basic spiral weave techniques this month. She will offer a morning workshop this month for tubular netting stitch.

Jennifer has created a wonderful copper wire bracelet project for the advanced students. Wait until you see her sample! She is offering a standard cab wrap and a basic cage wrap this month as well.

Please try to arrive about 15 minutes before your workshop is due to begin, so you can be ready to begin the beading or wire workshop at the scheduled time. Feel free to arrive even earlier than that if you need to obtain your supplies. Your instructors will appreciate the courtesy.

We join you in welcoming Spring 2007 to northern Nevada!
